

BELONGING

Feel secure through belonging.

What it's about; what it does for us...

...Feeling secure and accepted; it encourages us to look out for our group.

We feel this when...

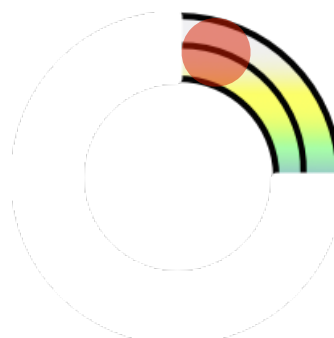

...we feel that we fit in, we are close to others and feel secure with them.

It makes us...

...seek the best for the group we belong to, we feel kindly disposed to the group and share with them and care for them. It makes us feel content.
