

JOY

Enjoy the moments of exhilaration.

What it's about; what it does for us...

...Loving what is happening and how well we are all doing; it makes us feel uplifted and want more of the experience.

We feel this when...

...we are doing things we really like and we are doing well; it's even better than we imagined.

It makes us...

...want more of this and seize opportunities. It helps us be creative and seek new possibilities.
