

# DETERMINED

Direct our energy with determination.

**What it's about; what it does for us...**

...Having a goal that's important to our worth; it commits us to grab the chance, and make sure we succeed.

**We feel this when...**

...we are up for an important challenge and we are keen to do well. We are trying to make something really important to us happen.

**It makes us...**

...give our best and try our hardest. We keep going with the challenge.
