

EMPATHETIC JOY

Share in others' success with empathetic joy.

What it's about; what it does for us...

...Feeling pleased for the success of others; it enables us to join in with their celebration.

We feel this when...

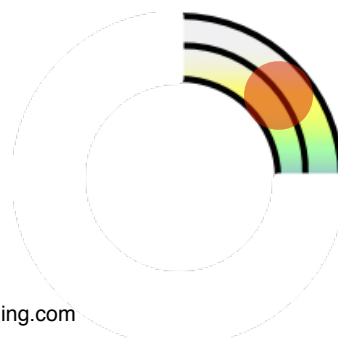

...we see that something good has happened to others, and we are completely devoid of jealousy or envy.

It makes us...

...pleased for them and we enjoy and celebrate their success with them, and so can feel part of a successful group.
