

# FRUSTRATED

Contain frustration by staying in the moment.

**What it's about; what it does for us...**

...Feeling blocked from doing what we want; it jostles us to do something to try to sort the problem.

**We feel this when...**

...we are blocked from getting on with things, for example, when the computer goes very slowly.

**It makes us...**

...try to sort the problem and remove what is stopping us, or give up, or get back at the person or thing that is blocking us.
