

# ENTITLED

Put entitled in its place with grace.

## **What it's about; what it does for us...**

...Seeing ourselves as more privileged than everyone else; we demand special treatment.

## **We feel this when...**

...we assume others will see us as superior and more privileged than everyone else.

## **It makes us...**

...expect that others will treat us as special and to get our own way. We ignore people we don't rate. We make unrealistic demands on others, ignore rules and offend people. We feel angry if we don't get our own way.
