

VALUED

Achieve significance by feeling valued.

What it's about; what it does for us...

...Feeling we matter to our group; it encourages us to make our fullest contribution.

We feel this when...

...people listen to and trust us. We feel we are known, important to others and of worth. Consequently we get what we deserve. People believe they can count on us. They would miss us if we left.

It makes us...

...want to matter more and to continue to be significant to others, to make a difference, to work hard and do our best.
