## EMPATHETIC JOY

# Share in others' success with empathetic joy.

### What it's about; what it does for us...

...Feeling pleased for the success of others; it enables us to join in with their celebration.

### We feel this when...

...we see that something good has happened to others, and we are completely devoid of jealousy or envy.

### It makes us...

...pleased for them and we enjoy and celebrate their success with them, and so can feel part of a successful group.
